

## Commission On Youth Ministries

The Commission on Youth Ministries fulfills its mission by providing opportunities for inter-group fellowship among youth and young adults through the National Association of Pilgrim Fellowship (NAPF) and the Heritage of Pilgrim Endeavor (HOPE) groups, which usually gather annually in different cities and towns around the country each Summer. The conference is an opportunity for sharing, growing, and learning for high school age youth (NAPF) and college age young adults (HOPE). Often the annual conference includes a mission outreach component to the program, where both groups do hands-on Christian service for worthy organizations in the area where the conference is being held.

In addition, the commission is constantly looking at ways to aid our member Churches in opening themselves to the important work of equipping young people for Christian discipleship. They are available for workshops, seminars, and consultations.
